

```
testing::TestWithParam  
< std::tuple< std::string,  
std::string, std::string,  
unsigned int > >
```

The diagram illustrates an inheritance relationship. At the bottom is a gray rectangular box representing the base class, labeled 'SurfaceBinningTests'. It is divided into three horizontal sections. A blue arrow points upwards from the top section of this box to the bottom section of a white rectangular box above it. The white box represents the derived class, 'testing::TestWithParam', and is also divided into three horizontal sections. The top section of the white box contains the C++ template definition for 'testing::TestWithParam'.
